The neuroscience minor provides an interdisciplinary approach to the study of the nervous system. Neuroscientists study how we learn, process and remember information from the molecular to the philosophical level, and examine subjects ranging from the molecular pharmacology of brain function to the mind-body problem.

Neuroscience offers a five-year dual degree program jointly sponsored by the Wake Forest University College of Arts and Sciences and the Graduate School of Arts and Science. Wake Forest University undergraduates pursuing a B.S. or B.A. degree in Wake Forest College of Arts and Sciences with a minor in Neuroscience have the opportunity to earn a research-oriented M.S. degree with concentration in Neuroscience with one additional year of study. Interested students can get more information at http://neuroscience.wfu.edu/5-year-neuroscience-masters-program/.

Courses

Minor

• Minor in Neuroscience

Faculty
Coordinator, Professor of Biology Wayne L. Silver

NEU 200. Introduction to Neuroscience. (3 h)
An interdisciplinary course taught by faculty representing several fields. Topics include neurophysiology, sensory biology, motor mechanisms, neuropharmacology, cognitive neuroscience, perception, developmental neuroscience, and the philosophy of mind. P - BIO 114 or PSY 151 or POI.

NEU 201. Neuroscience Laboratory. (1 h)
Examines principles of neuroscience ranging from the molecular and cellular to the behavioral and cognitive. Lab-3 hours. P or C-NEU 200.

NEU 300. Neuroscience Seminars. (3 h)
Consideration of current neuroscience topics. Presentations of current research by faculty on the Reynolda Campus or the Wake Forest University School of Medicine. Readings from the primary literature will accompany the presentations. P-NEU 200 or POI.

NEU 391. Research in Neuroscience. (2 h)
Supervised independent laboratory investigation in neuroscience.

NEU 392. Research in Neuroscience. (2 h)
Continued supervised independent laboratory investigation in Neuroscience. P--NEU 200. Not to be counted toward the minor.

NEU 393. Research in Neuroscience. (2 h)
Continued supervised independent laboratory investigation in Neuroscience. P--NEU 200. Not to be counted toward the minor.

NEU 394. Research in Neuroscience. (2 h)
Continued supervised independent laboratory investigation in Neuroscience. P--NEU 200. Not to be counted toward the minor.
