

# FINANCE, B.S.

## Requirements

The finance major in the School of Business prepares students to think analytically and critically by exposing them to theory and its real-world applications. Finance majors typically pursue careers in corporate finance and financial services, including portfolio management, investment and commercial banking, and financial consulting. The major emphasizes a strong concentration in finance and quantitative analysis and is supported by accounting concepts beyond the introductory level.

Requires the following courses:

| Code  | Title   | Hours |
|---|---|-------|
| ACC 111                                       | Introductory Financial Accounting             | 3     |
| ACC 211                                       | Intermediate Accounting I                     | 4     |
| ACC 212                                       | Intermediate Accounting II                    | 4     |
| ACC 221                                       | Introductory Management Accounting            | 3     |
| BEM 201                                       | Quantitative Analysis I                       | 3     |
| BEM 211                                       | Organizational Behavior                       | 3     |
| BEM 221                                       | Principles of Marketing                       | 3     |
| BEM 241                                       | Production and Operations Management          | 3     |
| BEM 251                                       | Management Information Systems                | 3     |
| BEM 261                                       | Legal Environment of Business                 | 3     |
| BEM 371                                       | Strategic Management                          | 3     |
| or BEM 372                                    | Strategic Management in Entrepreneurial Firms |       |
| BEM 388                                       | Management Simulation                         | 1.5   |
| ECN 150                                       | Introduction to Economics                     | 3     |

## Honors

School of Business students (exclusive of mathematical business majors) with a grade point average of at least 3.0 on all college work and who are eligible for membership in Beta Gamma Sigma are invited to apply for admission to the honors program in business and accountancy. A project, paper, or readings, and an oral presentation or examination are

required. Those who successfully complete the requirements specified by the School graduate with the designation "Honors in Accountancy," "Honors in Business and Enterprise Management," or "Honors in Finance." For additional information, interested students should consult a member of the faculty of the Wake Forest School of Business.
